DEAN R. HAEN

DIRECTOR

ANOTHER HEALTHY JUMP IN TONNAGE FOR THE PORT

FOR IMMEDIATE RELEASE

July 14, 2014

(Green Bay) – The [Port of Green Bay](#) had another strong increase in tonnage for June. During the month, the Port saw an increase of more than 77,000 tons of materials imported and exported compared to June of last year. June's increase is helping to close the gap on year-to-date numbers which are now only four percent below last year's mark.

"The Port saw several healthy shipments come through in June which continues to help make up for the late start to the season," said Dean Haen, director of Brown County Port and Resource Recovery department. "We anticipate the remainder of the summer will produce solid results as well."

The Port saw 27 ships come through in June carrying cement, pig iron, petroleum products, coal and salt. "The biggest jump was the shipment of limestone," Haen said. "June limestone tonnage increased 63 percent compared to 2013. Those are the numbers that will help us reach our tonnage goals for the year."

The Port of Green Bay has 14 active terminal operators involved in shipping commodities:

- C. Reiss Coal Company
- Construction Resource Management
- Flint Hills Resources
- Fox River Dock Company
- Georgia-Pacific Corporation
- Great Lakes Calcium Corporation
- KK Integrated Logistics, Inc.
- Lafarge North America
- Noble Petro Inc
- RGL Holdings
- Sanimax
- St. Mary's Cement Company
- US Venture
- Western Lime Corporation
